ENTHUSIASTIC MEETING IN NORWALK-SPEECHES OF GEN. VAN WYCK AND SENATOR PATTERSON.

TRANSPORATE TO THE TRIBUNE. NORWALK, March 27 .- Notwithstanding the inelemency of the weather, a very large and enthusiastic meeting of the citizens of this place was held at Lockwood's Hall this evening, to hear an address from Gen. Van Wyck, M. C., of New-York, and Senator Patterson of New Hampshire. Another and equally enthusiastic meeting was held at the same time in South Norwalk, and was addressed by Judge Culver of New-York. Gen. Van Wyck, on being introduced, said: I suppose that half of you in this assemblage have not forgotten a similar ceeasien some two years ago, when the people of the Connecticut were called upon, as they Reate of Connecticut were called upon, as they are now being called upon, to go to the balletbox, and there proclaim and defend their principles as our army in the field were doing with the bayonet. JApplause. You remember when the sun rose a little before election-day, the lightning flashed abroad the before election-day, the lightning flashed abroad the before the setting of the sun the same electric spark told us that our gallant boys were in Fichmend. You remember, too, that before the setting of the sun the same electric spark told us that our gallant boys were in Fichmend. You remember, too, that the Cepperheads of Connecticut, who heaped upon that army base vituperation, and who hunted Abraham Lincoln to his grave, are the same party to day that ask your suffrage in the present election. You are struggling new for the principles that your army fought for. The claim of Mr. English is that he once voted a Republican principle for the Republican party, and if that be a consideration, how much more of a consideration is it that one whose whole life has been the grand principle of the party, like Gen. Hawley, who, from the time of the origin of this Rebeilton until now, not only voted Republican principles at the ballot box, but moly fought for them upon the field. The General, after a few eloquent remarks, excused himself from further remarks on account of his voice failing. He was followed by Senator Paterson, who spoke elequently, and at great length, making a most convincing argument, going over the issues of the past history of our country foun to the present day. Rest assured Norwalk is alive to the issue and will give a good report on Monday next. Bue can be trusted. The glorious meeting held at New-Canaan this evening, was addressed by Wim. A. Mr. John Savage deliver a lecture, in behalf of the Fenina Brotherhood, on "Theobald Wolfe Tone and the Cause in Treland." Mr. Arthur G. Delaney called the meeting to order, and introduced the orator of the evening, who was received with the greatest enthusiasm.

Theobald Wolfe Tone was born a little more than 100 years ago, in Dublin. He was a scion of the people, the son of a tradesman, and grandson of a famier. Description of a tradesman, and grandson of a famier. Description of a good education. He entered Trinity College as a pensioner, graduated with honor, and made a romantic marriage with a young girl "sixteen years old and beautiful as an angel," whom he saw in a window in the vicinity of the college. Mathlia Tone was destined to occupy an attractive, even if sad, position in Irish history, and Mr. Savage tenderly dwelt on ker love, devotedness, and energy, and spoke touchingly of a pilgrin visit made by him to her grave in the old Presbyterian graveyard in Georgetown. District of Columbia. After his marriage Tone pursued the study of the law in London, writing for The magazines and projecting colonization schemes, to which he could not draw the attention of ministers. He did not like the law, and although he nearly paid expenses on his first circuit, he gave it up and commenced political pampleteer, and attracted the attention of some prominent Whig politicians. He was not, however, obsequious enough to succeed with them, beside his views sought the root of the evils which disgraced the Government and degraded the people, more than personal advancement by discussing the petity and superficial politics of the hour. He specially, said Mr. Savage, came to the conclusion that the influence of England was the radical vice of the Irish Government, and consequently that Irish dwald users be either free, prosperous, or happy until she was independent, and that independence was unattainable, while the connection with England extend the British flag." "the pood of the empire," "the henor of the British flag." "

Can the sentiment be creat and glorious on one ade of the Channel and wild afid absurd on the other? About this time Tone became a cognapted with Thomas Russell and Thomas Addis Eumet, the first of whom subsequently save his life to his country, and the second, after antiering years of imprisonment, became an exile to America, where he rose to emisence and died full of bonors in this city. Tone esteemed then't the first of his mit firends." With others these able and pure men were pendering on the state of Irish politics, and came to the conclasions with subsequently took the form of armed revolution. The first society of United Frishmen was founded by Ruse in Belfast on the 12th of October, 1721. He wrote all the resolutions as well as the declaration. Rejarming to Dublin he made the acqualutange of entable persons, and at the 8th of November a branch of the Society was lead to the Capitol. Although Tone and Napper Tandy were Expressions at this time, yet the Society was originated expressly to class 2 sall-pinentary reform and the about on of the Felmi laws. The maskets actually used by the peasantry numbered 20, and these were seized by skirmishers from citizens of the town, who were known to possess them. At a banking office, Col. Dunne called in person and demanded of the manager present the revolver and other arms which he had, but was daringly refused his request, and only caused compliance by the discharge of a twelve-shooter. During the short time the fight lasted at Kilhuallock, there were between 20 mid 40 rounds fired by Col. Dunne's men. ATTEMPT TO MURDER A POLICEMAN.

Between 12 and 1 o'clock yesterday morning an ttempt was made by three men to take the life of Officer Denning, of the Jersey City Police. The officer had eer Denning, of the Jersey City Police. The officer and arrested a man maned Francis McNamara for drunkness and disorderly conduct, and when at the corner of Propect and South-First-sits, two unknown men came up behind the officer, knocked him down, kieked him, and one of the party fired a postol-shot at him without effect. Just at this time, officers Rose, Jelly, and Hall came raining up, when the raffians decamped, but McNamara was finally re-arrested by Officer Rose, and handed over to Officer Denning. On the way to the Police Station the prisoner made a second desperate attempt to escape, but was clubbed into submission. Recorder Martindale committed him to the County Jafl for tival. SUPPOSED MURDER IN WASHINGTON-ST .- INVESTIGA-

TION BY CORONER SCHIRMER.

Shortly before midnight on Tuesday Officer Klauberg of the Twenty-seventh Precint was informed by one Michael Tully that a Mrs. Delia Lanergan then lay dead in her apartment in the tenement house No. 1354 Washington-st., and that there was reason to suspect that she

ington-st., and that there was reason to suspect that she had been murdered. The officer entered the apartment, and found the woman mentioned lying upon a bed, and much bruised about the head, and cut about the arms and legs. The cuts on the body look as though they had been made with a kinfe. The head bears the marks of a heavy blow from some blant instrument. The husband, Morris Lanergan, was arrested and locked up for the night. He states that at 7 o'clock the preceding evening the deceased was very much intoxicated, and he locked her up in her room and then went away with some companions and played dominoes, and that he knew nothing of the death of his wife multi toid of it by Taily.

Yesterday Coroner Schirmer partially investigated the case. He found an ax in the apartment which, under a microscopic test, showed marks of blood, and a broom, the handle of which was broken, as though used in an affray. The body is very much discolored, and there is ample evidence that the weman has been foully dealt with. In the possession of the prisoner was found a common pocker knife, all of the metal portion of which had been filed over so as to carrially remove any stain that it might have previously borne. The Coroner decided to adjourn the inquest until 84 a. m. to-day. In the meantime Dis. S. T. Leo and Morris Shine will make a post mortem examination of the bedy to determine the true cause of death. The prisoner is confined in the Twenty-seventh Precinct Station House.

A NEW AND INGENIOUS SWINDLE.

THE KIMEALL ABORTION CASE-CONTINUATION OF THE INVESTIGATION.

The examination of Dr. George Beakley and Mrs. Nancy Cole, the alleged abortionists, who are charged with taking the life of Mrs. Elizabeth E. Kimball by attempting to produce an abortion, was resumed yesterday before dustice Dowling at the Tombs. Dr. Dollon, Sanitary Inspector of the Board of Health, testified that he had been directed by Dr. Willard Parker, a member of the Board of Health, to investigate the case; that he had after proper search falled to find a record of Mrs. Kimball's death in the Registry of Villal Statistics and that he had applied to Coroner Gamble, and had received from him what purported to be the papers in the case. Dr. Daiton, also testified that in a conversation with Dr. Beakley regarding the case, the latter had said that if there had been any foul play he was innocent of any complicity in it. The counsel for the Gefense read and submitted as testimony the evidence taken on the inquest by Coroner Gamble and the permission from the Board of Health for the removal of the body to Providence.

Mr. Wilson the undertaker was recalled, and testified

Mr. Wilson the undertaker was recalled, and testified that the name appended to the inquest papers of Coronet Gamble was a forgery. The signature of "Sarah Coggeshall," is also declared a forgery by Miss Sarah W. Coggeshall, who was visited by Justice Dowling at her residence where she is confined by sickness. The Coursel for the defense summed up at considerable length, and moved for the discharge of the accused. This was opposed by the Assistant District Attorney, and was denied by the magistrate. The prisoners were then examined. Dr. Beakley testified that he was a native of New-York, agrid 50 wars, a physician, and resided at No. amined. Dr. Benkley testified that he was a native of New-York, aged 51 years, a physician, and resided at No. 42 West Twenty-fourth-st. He claimed to be not guilty. Naticy Cole testified that she was aged 44 years, a native of this city, by occupation a nurse, and resided at No 411 West Twenty-fifth-st. She claims to know nothing of the case. The further examination of the case was postponed until loday at 10 clock p. m. ARREST OF A SWINDLER.

Richard Rainforth, who was concerned a few days ago with Dr. Charles Kendall and a lawyer named T. W Nulla in attempting to swindle a Chicago Life Insurance Company out of the sum of \$15,000, by means of a false funeral certificate, was arrested in this city yesterder by detectives Yaughan and Niven, and locked up at Police headquarters. He will be sent on to Chicago in charge of an officer from that city. The full particulars of the aftempted swindle have been already published in The Termuse.

ARREST OF A FEMALE THIEF, AND RECOVERY OF STOLEN GOODS,

Yesterday Detectives Tiemann and Wilson while n Wall-st, received information from one of the firm of Messra. Hasey & Co., brokers at No. 88 South-st., that a woman had a short time previous offered to them for sale a United States 7.30 bond, which they believed to have been stolen. On the 24th of January last she sold to them a 8500 7.50 bond, she then giving the name of Stevens, and saying that she resided in Carmine-st. This bond was subsequently found to have been stolen from a Mr. Stevens. It was traced by the owner to Washington, where it hud been converted by the Treasury Department into Five-Twenties. Messrs. Hasey & Co. were communicated with, and expressed their willingness to said in securing the woman. While the detectives were in the office the woman returned, and was arrested. On reaching the Detective Office the detectives there found Mr. John Haffay of No. 1,271 Broadway, who stated that he had been robbed of a quantity of bonds. The woman was searched, and in her possession were found the bonds stolen from Mr. Haffay and others, amounting in the aggregate to over \$6,000. She was locked up. The secused, who gave her name as Helen Gibbons, is a native of Ireland, aged 27 years. She is described as a well-known special theef. Her residence, at the corner of Prince and Lautens-sts., was then searched, and in it was found a quantity of furs, silks, and other articles supposed to have been stolen. These were taken possession of by the officers, and may be seen at the Property Clerk's office at Police Headquarters.

not to go, and as Hyatt did not put in an appearance, he tarried until nightfall, and saw the place properly locked, with the harness inside. He was not he ground early next morning, but found only an enjoy from. Mr. Coleman recognized him. Hayes was recognized by Messrs. B. L. Robinson & Co., of No. fe Warren-st., and by Mr. John J. Smith of No. Its Broadway. Mr. Smith sold lam \$1,857 worth of silk umbredas, and delivered the consignment at No. 81 Beaver-st. Here, again, the purchase was left to await the purchaser's arrival, and on the return of the carman to get Mr. Smith's money, he too, found an cupty room. Hayes was also identified by Messrs. Lacey, Mesker & Co., of No. 27 Chambers-st.; J. T. Smith & Co., of No. 24 Broadway; Allen & Brothers of Canal-st., corner of Varick, and A. Baker & Co., of No. 66 Dey-st. Mr. John P. Dunham of No. 111 East Thirteenth-st., remembered Howard as R. M. Kingsland of No. 15 William-st., ostensibly a commission merchant, who had been authorized to purchase two pianos for a friend in the country. Mr. Dunham's loss was \$1,100.

It appears that Howard, who was once a clerk in Besfon, and next employed in like capacity in Broadway, in this city, but was dismissed from both places as a frief, was nominally a clerk but really a partner in the business which Hayes & Co. have transacted under so many aliases and in so many offices during he past three years; and it was noticed that at the police station, yesterday, he, who had been seen always with his hat off, kept it on while the merchants were looking upon him, and that Hayes, whom the merchants had never seen except in full dress, kept his hat off, and put it on only when Capt. Petty ordered him to do so. While in his cell, on Monday night, he cut his whiskers with a small penknife and strove to change his hielentity. He denied all knowledge of every merchant that accosted him, asseverated that he never wore the garments which he was said to have worn under his various aliases, and was utterly uncommunicative, and with creaker not to go, and as Hyatt did not put in an appearance, he

never wore the garments which he was said to have worn under his various aliases, and was utterly ancommunicative, and with respect to his recent transactions with our wholesalers profeundly oblivious. But notwithstanding Hayes's reticence, Detective Officer Field has fathomed the mysteries of the firm of Hayes & Co., and learned that it is composed of eight accomplished confidence operators; that two of the number have made the purchases in New-York, and one made sales of the goods in this city at auction, and that the others have received such goods as have been sent to other cities for disposit. The prisoners were held in the Leonard'st, Police Station last night, and are to be taken to the Police Central Office this morning to be photographed, which having been done, Capt. Petty will surrender them to a magistrate.

The prisoners were locked up for the night.

METROPOLITAN FIRE DEPARTMENT .- A regular yesterday at Fireman's Hall. The only business transyesterday at Prichat of a routine character, was the adoption of a resolution, offered by Mr. Pinckney, that a bell or bells be placed either on the horses or apparatus of the entire Department. This action was suggested by the coroner's jury in the case of Henessy, killed by being run over by Engine No. 25. There will be a change in the Board at its next regular meeting, Mr. Clark taking his seat as a member, in place of Mr. Brown, resigned. Yesterday morning the trial of a new, second-class Amoskeag engine, to be used by Engine Company No. 18, located in Greenwich-ave, took place in the square at the intersection of Chistopher and Grove-sts. Commisioner Abbe, Chief-Engineer Kingsland, and other officers of the Fire Department were present. At the first experiment a stream of water was thrown 216 feet, out of a 14-inch nozzle and 600 feet in length, with an inch and 14-inch nozzles, which were subsequently attached to the engine, and discharged streams of water a distance of about 175 feet. The main advantage of the engine is in its having double pumps, which can be used singly or together. Two more engines of the same pattern have been ordered for the Department, and Will be put in possession of Engine Companies Nos. 21 and 33. acted, beside that of a routine character, was the adep

THE CITY CHAMBERLAIN'S FEES .- The bill intro duced into the Legislature by Senator Thomas Murphy providing that the salary of the City Chamberlain shall be \$10,000 per year, instead of fees, has attracted attention to the receipts of the office heretofore, and to the custody of the city finances. The act of April 2, 1850, provided that moneys belonging to the City or County of New York shall be

"All moners belonging to the City or Cennty of New-York shall be deposited by the lead custodian threaf, forthwith, without delay, from time to time, as received by him, in any bank which be shall, under his official bond, select for that purpose, and they shall not be withdrawn except as novined specifically by law or ordinates."

Under this authority, the Chamberlain has received from such banks as he has selected, an interest amounting to over \$100,000 annually, for the use of the city's money. Inasmuch as the Chamberlain need perform havily as much labor in return for this enormous income as an ordinary office-boy, it is alleged that the proposed salary of \$10,000 and the liberal allowance for clerk hire. as an ordinary office-boy, it is an eget that the proposed salary of \$10,000, and the liberal allowance for clerk hire, will be superabundant for the incumbent of that office.

But the interest upon the City's funds, large as it is, is not the extent of the Chamberlain's receipts. He is also in receipt of a percentage on the State tax, commissions upon Court funds, and other perquisites, by which the total receipts from the city are said to be swelled up to the vicinity of \$10,000 per year. If so, the bill now before the Legislature will effect a yearly saving to the city of \$10,000 per percentage.

CONSCIENCE MONEY .- Yesterday morning Controller Connolly received the following letter:

RIGHARD B. CONNOLLY, Controller.

THE GOLD PEN-BEST AND CREAPEST OF PENS. MORTON'S GOLD PENS THE BEST PENS IN THE WORLD.

For sale at No. 25 MAIDEN-LANE, New-York, and by every duly-appointed Agent at the same prices.

Morton makes no Pens stamped with the Name or Trade-mark of any other; therefore, where an Agency is established, the public will be best suited, and at the same prices, by calling on the Agent; in all other places those wishing the Morton Pen, must send to Headquarters, where their orden: will receive prompt attention, if accompanied with the cash

WHO MAKES THE BEST AND CHEAPEST GOLD PENS

It is the trade-marks of the prosperous and deserving that rogues find their account in forging, and articles of unusual and acknowledged merit that imitators exhaust their ingenuity in copying. The best metallic pen ever invented is Alexander Morton's. Nature made a suggestion when she provided goose-quills, which Morton accepted and carried out in gold. The penalty follows, and men, without the ability to make an honest living, steal his name and reputation to cheat the public with a spurious article. There are pens, and Morton-pens, and the rogue knows that if he can persuade the people who write and don't scratch merely, that that which he can make is the same thing as that which he cannot, he is on the high road to fortune. It is a simple proposition-to pass off one pen for another. Some resort to even a simpler process. One knave issues a circular, signing Morton's name with other initials, in which he promises a pen for a remittance in money. The dupe sends the money, cheated by the stolen name, but gets nothing in return. Perhaps he seeks for redress at the place whence the circular assumes to come; but no such place can be found, and he puts up with a dead loss. Or the same circular is sent out with another signature; but the result is the same; the price is paid, but no pen is returned. Morton's reputation thus becomes an article of trade in the rogues' market: its real owner is defrauded, and multitudes made the victims of knavery. Oftener a spurious article is sold for the real Morton pen, in which case the reputation of the inventor suffers still more, and the purchaser, though he gets something for his money, has a poor thing where he hoped for a good one, in the existence of which he no longer believes.

Mr. Morton proposes to protect himself and the public. In his published Card he announces that henceforth his pens will only be sold at his own place, No. 25 Maiden-lane, and by his authorized agents. These agents will all be provided with a large and conspicuous certificate of authority to sell, and the pens cannot be bought of anybody who cannot show one. Hereafter nobody need be cheated, and everybody who wants the best of pens can buy them of the agents at the manufacturer's prices, with the certainty that the article paid for is the article they meant to buy .- [New-York Daily Tribune. MORTON'S GOLD PENS .- Mr. Morton, the suc-

cessful maker of the best gold pens in the world, publishes a business card announcing a change in his system of selling to dealers. He now sells the Morton pen at wholesale to nobody but duly appointed and authorized agents, who are required to sell to the public at Mr. Morton's published rate of prices. This arrangement will secure to every principal town an authorized agent who will have a full and varied assortment of these justly famous pens, so that the purchaser can have a far wider range of selection than heretofore, when every large town has had several dealers offering limited and indifferent samples of this pen, and often at unfair prices. We have on other occasions stated our opinion of Morton's gold pens. They are beyond comparison the best. The maker's system of machinery, too, by economizing labor, enables him to put upon the market a pen of purer gold, and far better make, than any others, at prices much less, in proportion to quality and make, than those of any other manufac-[Hartford Daily Times.

MORTON'S GOLD PENS .- We have used many gold pens, and like those made by Mr. A. Morton, of No. 25 Maiden-lane, far better than any others we have ever tried. We have used no other for a long time past. No better gold pen [American Agriculturist.
